RE: UPDATED LISTING OF FIRE CODE BY MUNICIPALITY

Attached is an updated list of ISO Fire Codes for every municipality in the State. Please discard any prior listings, and replace those listing with the attached update.

Additionally, the "Instructions for Completing Licensed New Jersey Surplus Lines Producer Quarterly Tax Return" requires a slight amendment. At the top of pages 4 (SLPS INSTR. REV 02/17/98), third bullet paragraph, please **disregard the last sentence which reads as follows**, " If the municipality does not have an assigned FRA (three) digit code, the "999" code should be used." Under the updated listing, ALL municipalities have been assigned a three digit code.

Please direct any questions to (609) 292-5350, ext. 50106
